

South Carolina Psychological Association

January, 2017

Dear SC Psychologist,

We want to thank you for all your support over the years, and it is once again time to renew your SCPA membership dues. As you know, SCPA is the only organization that represents you as a psychologist and defends your place as a doctoral level mental health provider in the ever changing health care environment. 2017 promises to be a very important legislative year as mental health care continues to evolve in the new health care arena. SCPA will be on the front line making sure that you, psychologists, the highest trained mental health professionals, are involved in all legislation that effects the profession. We are not able to accomplish this without your support. Membership is the sole reason why SCPA is so successful. **YOU** do make a difference.

In 2017 SCPA is offering a more convenient way to pay your dues. You are now able to pay your dues monthly via a credit card or invoice. For as little as \$22.91/month you can be a SCPA member !! What a great investment to know that your profession and license are protected!

Get involved and take advantage of the following benefits of SCPA membership.
